## DANGER FOR IGNITION IN 500M ZONE

2019-001

During an operation within the 500m zone of a platform, the use of a mobile phone on deck of a vessel was observed. The operation was stopped immediately and only continued after the person stopped using the mobile phone.

In addition to article 5.3.4 from the SNS Pool Marine Operations Manual concerning 'hot work' inside the 500m zone, the following warning is applicable:

**!It is not allowed to use any source of ignition within the 500m zone!**
