

SAFETY FLYER

Safety nets

No. 33/2011

What went wrong

- Safety net not used but on bottom of basket
- Basket is overfilled
- Content was not or incorrect secured

Wooden box loaded on sloping side of open waste skip

Learnings:

- Always use a safety net in case of open waste skips
- If used correct a safety net may prevent content from dropping
- Do not load open waste skips over the edge
- Make sure that content is secured correct

There is always time to do it right!
